

## Utility-Scale ESS

### Safe and Reliable

- No parallel design, cluster-level isolation, multi-level linked protection
- Active ventilation, explosion-proof pressure relief

### High Integration

- AC/DC integrated design & cabin design to save space
- Standard container design, easy to disassemble, transport and install

### Simplified Maintenance

- Modular design, plug-and-play
- Cluster-level active balance. SOC automatic correction

### High Balance

- Precision control of temperature difference
- One-to-one control, eliminating inter-cluster circulation
- Mitigating the weak link effect
